DETAILED ACTION

1. This Office Action is in response to Amendment filed on 5/05/2010.

Allowable Subject Matter

2. Claims 1-25 allowed.
3. The following is an examiner's statement of reasons for allowance:

Claim 1 recites, inter alia, an additional path, beginning at an output of the inductor and including a circuit element configured to control the additional current path, said additional current path formed to have current flowing through said additional current path basically immediately reach a desired value, when said additional current path is enabled by the circuit element.

Claim 10 recites, inter alia, in response to a level of a voltage used for outputting the power reaching a first threshold, enabling a controllable additional current path arranged to begin at an output of the inductor and in parallel to said output capacitor, the additional current path configured to reach a respective desired current flow basically immediately through said additional current path and draw energy from the input terminal when enabled.

The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include either of the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
